3. Technical Implementation

- Created `fetch_amazon_products.py` - Fetches product data from Amazon SP-API
- Created `update_products_with_amazon_data.py` - Updates website with product data
- Updated `lib/products.ts` with proper TypeScript interfaces
- All products include:
 - Real Amazon product images
 - Accurate pricing from your CSV
 - Proper categorization
 - Size variations
 - SEO-friendly slugs

4. Deployment

-  Website built successfully
-  Changes committed to Git
-  Pushed to GitHub (main branch)
-  Vercel will automatically deploy the updates

Next Steps

Your website will automatically redeploy on Vercel within the next few minutes. The new products will be live at:
